The EUROFIGHTER TYPHOON is the combat aircraft of choice of five European and four other countries.

Page 56
The CAMCOPTER of the Austrian company Schiebel is in service with users on all five continents.
STIM210 is a small, lightweight Three Axis Gyro Module for accurate pointing and stabilization, flight control and guidance applications.

- ITAR free
- Small size, low weight, power and cost
- Insensitive to magnetic fields
- Low gyro bias instability (0.3°/h)
- Low gyro noise (0.15°/√h)
- Excellent performance under vibration and shock
- Available in 1, 2 or 3 axes
- Fully calibrated and customer configurable to the specific application
- Weight 55 grams, volume <2cu.in, power 1.5 W

STIM210 is field proven in Missile systems, Target acquisition systems, Airborne surveillance, DIRCM, Remote Weapon Systems, Launch vehicles, Military Land navigators and Satellites.
