

Preface	
Strengthening Military Mobility	2
Dr. Thomas Kauffmann, Managing Director and Vice President GDELS International Business & Services	
We Enable Mobility	3
Dr. Christian Kauth, Managing Director and Vice President, GDELS–Bridge Systems	
„Aluminium is the best combination of the disadvantages of all possible materials.“	6
Interview with Dr. Christian Kauth, GDELS–Bridge Systems	
Historical Development	
Building Bridges over the Centuries	9
Continuities and technical change: from antiquity to today, engineers master similar challenges Andreas Himmelsbach	
70 Years of Experience in the Construction of Amphibious Bridge Systems	13
GDELS–Bridge Systems	
Military Mobility and Interoperability	
Military Mobility and Interoperability from an EU-NATO perspective	16
Lieutenant Colonel Holger Poeppe	
Solutions for NATO's Current and Future Gap Crossing Capability	18
The CEPA Project "Military Mobility"	21
Interview with Lieutenant General (ret.) Ben Hodges, Senior Advisor Human Rights First	
Rail Loading Ramps	27
GDELS–Bridge Systems	
Interoperability of Floating Bridge Systems	29
GDELS–Bridge Systems	
GDELS' Bridging Helps Underpin UK, NATO Mobility and Interoperability	31
Tim Guest	
The German/British Amphibious Engineer Battalion 130	34
Lieutenant Mario Kissel	
Establishment of the German/British Amphibious Engineer Battalion 130 Minden 30.09.2021	36
Lieutenant General Alfons Mais, Chief of the German Army	
Military Mobility – Core Element of a Credible NATO Strategy	38
Lieutenant General (ret.) Heinrich Brauß	
GDELS–Bridge Solutions	
The Floating Bridge Family IRB-M3-HYDRA	40
GDELS–Bridge Systems	
Evolution of the Amphibian M3	43
How constant development has kept the M3 amphibious bridge and ferry system up-to-date over the decades GDELS–Bridge Systems	
A New Approach to Mobility	45
GDELS–Bridge Systems	
Flexibility Follows Function	49
GDELS–Bridge Systems	
Use of VIPER Bridge System by the U.S. Marine Corps	51
GDELS–Bridge Systems	
MAMBA – The All-Rounder	52
GDELS–Bridge Systems	
Testing the limits of the Improved Ribbon Bridge	53
Carol C. Coleman	
GDELS–BS – the Partner for High Military Load Class Equipment	55
GDELS–Bridge Systems	
Operation and International Users	
Building Bridges and Interoperability in a Strong Europe	57
River-Crossing Operations during Exercise Anakonda 16 Major James M. Kadel and Captain Olufemi O. Apata	
Wet Gap Crossing	61
Keys to success, doctrine, principles and Tactics, Techniques, and Procedures from inside a Multi-Role Bridge Company 1 st Lt Taylor M. Ross and Cpt Russell L. Bettencourt	
Future of Gap Crossing in the Royal Netherlands Army	66
Captain Elmar J. Hoogterp	
Medium Gap Crossing	69
Captain Elmar J. Hoogterp	
M3 Meets Swedish Requirements for Cold Weather Operations	72
Erik Wistedt	

Operational in Iraq with GDELS' Bridging Tim Guest	75
The MAMBA in Service with the Austrian Armed Forces Lieutenant Colonel Stefan Schulz	78
Mobility Support Equipment for the Republic of Korea Armed Forces Hanwha Defense	80
Future Strategy of Engineer Operations for Water and Dry Obstacles – from the Perspective of the German Army Corps of Engineers Lieutenant Colonel Michael Frick and Captain Torsten Patzak	83
Disaster Protection	
Floods: Involving the Bundeswehr in Disaster Management Juliane Thümmel	86
Disaster Protection Deployment of Military Bridges in the Bundeswehr GDELS–Bridge Systems	89
The Amphibious Bridge and Ferry System M3 has proven itself in numerous missions Interview with Colonel Jörg Busch, German Army Engineer School	91
Training and Logistic Support	
Quality Assurance at General Dynamics European Land Systems-Bridge Systems GDELS–Bridge Systems	93
How do we learn in the future? About the future of learning from a technical and didactic point of view Dr. Uwe Katzky and Klaus Bock-Müller	95
Welding like Professionals The General Dynamics European Land Systems-Bridge Systems Welding Centre GDELS–Bridge Systems	98
Civilian Bridging Applications	
PoBo Development Project „Development of an Improved, Multifunctional Pontoon Boat“ GDELS–Bridge Systems	99
General Dynamics European Land Systems presents Pontoon Boat in Hamburg GDELS–Bridge Systems	101
Autonomously Operating Reconnaissance Unit – BASILISK GDELS–Bridge Systems	102
Civilian Bridges for Disaster Control and Construction GDELS–Bridge Systems	104
GDELS participated in the NATO event Wide Wet Gap Crossing (WWGC) in Ingolstadt (Germany) GDELS–Bridge Systems	106
